

ABOUT ME :

Interior Design is the first choice for my career but not the only one. Beside that, I do prefer management work as well. Believe in hard-working always important than talents, things cannot be done without hardwork. Other than above two, I would love to do charity events. Helping the helpless people do make me feel great, and it show love and passion towards the world. Learning through every stage of work actually help me to build up my experience, and to have a positive mind upon all the challenge.

Life quote: Cease to struggle or you cease to live.
